

Java Programming Coding Questions

PRINCE CHOUDHARY

 princeofficial_007

Java Coding Questions on Numbers:-

1. Write a program to reverse an integer in Java.
2. Write a program in Java to check whether an integer is Armstrong number or not.
3. Write a program in Java to check given number is Prime or not.
4. Write a program in Java to print the Fibonacci series using iteration.
5. Write a program in Java to print the Fibonacci series using recursion.
6. Write a program in Java to check whether a number is palindrome or not using iteration.
7. Write a program in Java to check whether a number is palindrome or not using recursion.
8. Write a program in Java to find greatest among three integers.
9. Write a program in Java to find sum of digits of a number using recursion?
10. Write a program in Java to swap two numbers without using third variable?
11. Write a program in Java to swap two numbers using third variable?
12. Write a program in Java to find prime factors of a given integer.
13. Write a program in Java to add two integers without using arithmetic operator?
14. Write a program in Java to find given number is perfect or not?

Java Coding Questions on String:-

1. Write a method in Java which will remove any given character from a String.
2. Write a program in Java to count occurrence of a given character in a String?
3. Write a program in Java to check if two Strings are Anagram.
4. Write a program in Java to check a String is palindrome or not.

Java Coding Questions on Array:-

1. Write a program in Java for, in array 1-100 numbers are stored, one number is missing how you find it.
2. Write a program in Java for, in a array 1-100 multiple numbers are duplicates, how do you find it.
3. Write a program in Java for, How to find all pairs in array of integers whose sum is equal to given number.
4. Write a program in Java for, in an array 1-100 exactly one number is duplicate how do you find it.
5. Write a program in Java for, Given two arrays 1,2,3,4,5 and 2,3,1,0,5 find which number is not present in the second array.

Java Programming Coding Questions

PRINCE CHOUDHARY

 princeofficial_007

6. Write a program in Java for, How to compare two arrays is equal in size or not.
7. Write a program in Java to find largest and smallest number in array.
8. Write a program in Java to find second highest number in an integer array.
9. Write a program in Java to find top two maximum numbers in array?
10. Write a program in Java to find all pairs in array of integers whose sum is equal to given number.
11. Write a program in Java to remove duplicate elements form array.
